EDDY PUMP CORPORATION

The EDDY Pump Powers All Our Equipment

Features

- Non-Clogging
- High Viscosity
- High Abrasives
- Low Maintenance
- Pump 40-70% Solids
- High Specific Gravity
- No Critical Tolerances
- Minimal Downtime

Options

- Various Dredge/Pump/HP Configurations
- Customizable Systems
- Electric and Hydraulic Driven
- Various Cutterhead Options
- Remote Operation Capability
- Liner-Safe Operation (Clay, Poly, Concrete, etc)
- Environmentally Safe (Minimal to No Turbidity)
- Easy to Ship and Attach, Worldwide
- RTK/GPS Precise Positioning and Dredging

Excavator Dredge Pump Attachment

- Attaches to your excavator (CAT, Deere, Volvo, etc)
- 4-inch, 6-inch, 8-inch and 12-inch versions
- Powered Hydraulically by Excavator or Electrically
- Cutterhead and Non-Clog Head Configurations
- Pump 5000 feet without booster pump
- Dredging Depths of up to 85-ft
- Liner Safe Option for Dredging Clay, Poly or Concrete Liners
- Pump 40-60% Solids

100% American Made

EDDY Pump Corporation

EDDY Pump Corporation is an engineering company that manufactures pumps and dredge equipment. Since 1987, we continue to innovate and bring our clients the most breakthrough patented technology and service the industry has to offer. We remain 100% American made and engineered.

EDDY Pump technology harnesses the power of a tornado into fluid dynamics, creating a synchronized eddy current. This allows the EDDY Pump to handle high concentration of abrasive slurries with less downtime, clogging and spare part costs.

EDDY Pump Attachments Purchase or Rent

EDDY Pump offers sales, turnkey rental services and solutions to clients worldwide. Over 25 year's experience completing the toughest dredging projects in the industry. Many of our dredge pump and excavator solutions are custom built.

We Pump Solids Not Water
